Following is the score: ca. Kohler said the movement contemlated doing away with the belief of orthodox Hebrews that they are all to go back to Palestine. It is intended to eliminate all teachings that give Judaism a national or Oriental character. He denounced the rite f circumcision, recommended that uni versal suffrage be adopted for marriage and uneral ceremonies, and strongly reprehended the practice of each synagogue havng its own forms and ceremonies. PLATFORM ADOPTED.

include some of the best lands, and if divided among the heads of families, each family would have 1,000 acres. I would recommend that each family be given and located on 320 acres, now provided for them by law in case of actual seitlement. The Government should then condemn all the balance of each reservation, buy it in at \$1 25 per acre, and with the proceeds purchase Government bonds, to be held in trust by the Interior Department, only giving the Indians each year the interest on bonds, for their support.

The Kentucky Reilway Tax Cases.

Washington, November 17th.—The Supperme Court has rendered a decision in the Kentucky railway tax cases. They were three in number, brought by the State and Ohio Railways, to recover taxes levied by the State. The decision of the lower Court was in favor of the State, which the Supreme Court now affirms. Two Federal questions arose on record in these cases. First, that the Act of a State Legislature.

restions arose on record in these cases.
rst, that the Act of a State Legislature, NEW YORK. November 17th.—A mass meeting was held in Steinway Hall last night, the first of a series called to consider a bill which the Church Temperance public revenue by levying and collecting laxes are not necessarily judicial, and that "due process of law," as applied to the case, does not imply or require the right to case, does not imply or require the right to \$1.000 for spirituous liquors and \$100 such notice hearings as is essential to the validity of judicial proceedings. Respecting the question of discrimination against railway companies and their property, as being obnoxious to the Fourteenth Constitutional Amendment, the Court holds that the rule of equity in respect to this subject only requires the same means and methods to be applied to all constituents of each class, so that the law shall operate equally and uniformly on all persons in similar circumstances. There is no objection, it declares, to discrimination as between railway companies and other corporations, by a method by which the value of reciprocity is obtained.

Decisions in Two Public Land Cases.

We summorrow, November 17th.—In the Supreme Court to-day, a decision was rendered in two public land cases, brought up on appeal from the judgment in the Supreme Court of Dakota. The first was an example of the corporations and strong for spirations requires and bars to be closed at midnight, and believe that no sum in this subject to try excise cases forthwith. The bill prohibits saloons within 200 feet of church or school-house. Rev. E. W. McDonald represented the attitude of the Church Temperance Society as follows:

We take the ground that the Bible is not totally for abstinence. Men have been obliged to leave their pulpits for saying this. The total abstainer has learned to speak the truth of his neighbor. They used to think and believe that no one except total abstainers had a right to go to temperance meetings. The position of the church is one of common sense. That may not be very high, but it is one which has great power with men. The Society does not try to stop all liquor business, but we shall do what we can to mitigate the curse of liquor."

Indeed, this whole matter is an involved one, and capable of a great numbe of interpretations and theories. The most recent, and by all odds the clearest state ment of the question up to 1881, will be found in Wilhelm Muller's "Political His tory of Recent Times." Therein is dispowers, the conflicts and their settlement to that date. Since that period the history of the Eastern question is more familiar to the general reader. It cannot be satisfactorily set forth now, but may be dismissed with the statement that it has its springs in the unquenchable desire of Russia to pluck Constantinople from the Turk, and in the jealous fears of England and Germany that such a catastrophe may happen. The Slav States are barriers to the progress of Russian ambition, and she will hesitate at no scheming to break them down and remove them from her

We have no idea that the war is to be one of considerable length. The forces engaged are not numerically great, nor are they on either side properly armed or officered. The great powers do not propose to permit the conflict to continue any longer than suits their selfish purposes, when they will call a halt and proceed to divide the spoils, and which means the furency of the contestants to schemes of Austria and Russia, limited only by the influence that England and Germany may bring to bear. of November 14th: During the days of Coburn Station, the town was infested by a class of desperate characters. There was no organization mong the bad element, however, and law and justice generally kept them under con-trol. At present, Truckee has more of the same class than at any time in her history since the town dropped the name of Coburn Station. The worst feature of the case is that at present there is a complete organization among this element. Petty crimes are of daily occurrence, and as there have been no convictions for crimes during the past seven or eight months, crimes are increasing in a fearful ratio. At any time in the morning after 2 o'clock, Jibboom street is swarming with men and women whose faces are seldom seen on the streets in the daytime. There are thirt; confirmed opium smokers, and a miscellaneous colection of hard characters of every departs of the coast. Immunity from conction for crime is an attractive feature of the town in the eyes of this class of people If the present state of affairs is to exist nger, there will be no safety for either life or property in Truckee. or EXCESSES OF MATURITY.

It permanently prevents all Unnatural Loss from the system, as thousands can attest who have used the Remedy in the past quarter of a century which it has been before the public.

It is indeed a wonderful remedy—toning the nerves, strengthening the muscles, checking the waste, invigorating the whole system and restoring the afflicted to HEAL/TH and HAPPI-NESS. The Doctor will agree to forfeit \$1,000 for a case undertaken not cured. The reason so many cannot get cured of Weakness and the above diseases is owing to complication called PROSTATORRHEA with Hypersthesia, which requires special treatment.
